

Tornado 90000™ PRODUCT PROFILE

The Tornado 90000 is TOPDON's newest cutting-edge smart charger, made for professional and commercial users.

This device is suitable for all types of 12V and 24V lead-acid batteries, with a wide battery capacity range from 5 to 90 amps.

The Tornado 90000 features a current/voltage edit function and supplies users with the needed protection for batteries through its 9-step smart charging method and 6 charging modes.

SUPPLY Mode provides a stable DC output and can be used as a programming voltage stabilizer.

Specs

Input Voltage

100-130V or 200-240V

Adjustable Voltage

11-15.8V 22-31.6V

Charging Mode

12V/24V Mode:
SUPPLY/NORM/COLD/BOOST/REPLY/AGM

Applicable Batteries

20-2800Ah

AC Cable length

1.8m,
Input AWG18#

Clamp length

Positive AWG4#, 2.2m
Negative AWG4#, 2.2m

Protection rating

IP20
Fan cooled

TOPDON

Function

Programmable charging
Battery repair
Stable Power Supply

TOPDON

6 CHARGING MODES, ADJUSTABLE CURRENT AND VOLTAGE

The Tornado 90000 offers 6 programmable charging modes to ensure the right current and voltage output at all times. This device also features an electrical current edit, and voltage edit function. The voltage adjustment ranges from 11-15.8V, and 22-31.6V. Corresponding currents are 5 – 90A and 5 – 45A.

TOPDON

LARGE POWER BANK

The Tornado 90000 can act as a stable power supply for various automotive appliances such as tire inflators, car fridges, and more.

TOPDON

ECU PROGRAMMING VOLTAGE STABILIZER

ECU programming voltage stabilizer can match multiple brands and types of automotive systems.

TOPDON

UNMATCHED COMPATIBILITY

Charge a wide variety of 12V and 24V batteries, such as AGM, WET, GEL, MF, CAL, and EFB batteries. The Tornado 90000 is suitable for batteries between 5 and 90 amps.

9-STEP SMART CHARGING

TOPDOWN

- Diagnosis
- Pre-charge
- Bulk charge
- Analysis
- Maintain
- Desulphation
- Soft Start
- Absorption
- Recondition

Its "9-step smart charging" provides strong protection to the battery and the automatic charging and disconnection system eliminates any risk of overcharging.

TOPDON YOUR BATTERY'S BODYGUARD

With the T90000 you are protected against reverse polarities, reverse charges, short circuits, overheating, and over-voltages.

TOPDON

DUAL TEMPERATURE MONITORING FOR SAFETY IN EVERY ELEMENT

The T90000 features a built-in temperature sensor constantly protecting the device being charged. It has a built-in temperature sensor to detect the temperature of the device at all times; External temperature sensing probe to monitor and protect the device being charged.
